1	1/4/2016	Establishment of training programs for station personnel	<p>Market Engineering Manager Development Program (MEMDEV)</p> <p>The SEU staff engineer was selected to be a participant in the 2016 iHeartMedia Market Engineering Manager Development Program (MEMDEV). MEMDEV is a two year program created to identify highly motivated individuals from within our ranks who have demonstrated the potential to grow into major market engineering managers. The program is designed to accelerate that growth through the use of both classroom education and field experience. Each candidate is given an Individual Development Plan (IDP) that outlines a structured curriculum. The curriculum consists of video and on-line course work as well as quarterly participation in out of market training such as specially designed seminars focused around iHeartMedia specific systems and assisting in major projects such as AM and FM antenna system construction and studio relocation projects across the enterprise that under normal circumstances an engineer may see only once or twice in their career. During 2016, the training has included an Radio Frequency course from Harris Corporation, an ICND1 Routing and Switching course by Kevin Wallace, an SBE Webinar called "Managing a Project and Outside Contractors for Success", and attendance at the SBE Leadership Development Course, August 9 - August 11 in Atlanta, GA.</p>	1	See Description
