

Discover Screen

The discover screen is the app's homepage, here you'll find information on tonight's program, access the most recent shows, recent articles, guests, the Art Bell Vault, Classics shows, filter by category and listen to the live stream at broadcast time.

News

The news tab showcases our most recent articles as well as unique stories from the web.

You can press the **See all** button to display all of our stories.

If you're interested in a particular category then you can select it by swiping left on top where it says **Top Stories**.

Listen

For the first time ever, you can access our entire back catalog. In the Listen tab you'll be able to sort through our past shows, play and save each episode from the last five years. This feature is only available for Coast Insiders.

- Select the show you want to listen to.
- Press the Play Show button

• Select the hour you wish to listen to.

Visit https://www.coasttocoastam.com/coastinsider to become a Coast Insider.

- The selected hour will start to play, and the controls will show up as a mini player.
- The mini player allows you to pause and **rewind** or **fast forward** 15 seconds.
- The mini player opens to fill your screen once you click on the text.
- This screen expands your controls. You can now skip to a different hour and scrub through the episode using the progress bar.
- Selecting the **1x** option on the bottom left allow you to change the speed of playback.
- The **Zzz** below the pause button allows you to put the app to sleep after a period of time.
- Additionally selecting the arrow in the top left brings back the mini player, the bookmark icon saves your show and the X closes the player.

Saving and Downloading

The app allows you to save shows and articles by bookmarking them.

Saving

To bookmark a show, you'll need to open it and click on the bookmark icon on the top right. Once you select it, it will change to a **purple color**. This confirms that this show is now saved.

ABOUT THE SHOW

John D. Wood, Esq. is an attorney, author, and advisor on one of today's most disruptive business changes: artificial intelligence. In the first half, he discussed the dangers posed by the growing powers of AI and how to make a plan for the future where humans and
