

The American Heart Association is here to help those affected by Hurricane Harvey. We salute the work being done by so many committed to ensuring the safety and recovery of our community and our neighbors.

Visit [www.heart.org/HurricaneHarvey](http://www.heart.org/HurricaneHarvey) for resources to help manage medical conditions in an emergency including:

- List of most common cardiac drugs
- List of most common blood pressure drugs
- Medical Assistance programs
- Medication tracker form
- Quality-awarded hospital map

- Tips for Handling Stress
- Hands-Only CPR how-to (video)
- Study on heart attacks after Hurricane Katrina
- Warning signs of heart attack, stroke and cardiac arrest
- Support Network
