Safety First

At Daphyl's the safety and safe use of our products is our primary concern. In order to best ensure your baby's safety we design and then we test. We test for:

- Strength
- Pull
- Durability
- Small Parts
- Chemicals
- Scratch
- Balance
- Use

After all testing is complete (by government certified testing labs), we produce our products and then we do the entire testing again. Only after passing and or exceeding all known safety standards at the second phase of testing, will we release our products to market.

Daphyls[®]
licensed bands have over:

1 BILLION
total albums sold

10 BILLION
in licensed merchandise sold

Umm, our child needs this.
