

Ed Dames shares this aerial image in tandem with his [8/11/21](#) show appearance:

He writes: Matrix Intelligence Agency 'minority report' - The attached aerial is that of the UK MoD headquarters. It is the planned target of false flag attack designed to (falsely) implicate Iran in order to spawn an attack on that country. (My team knows where the attackers and their weapons are located, but that information will not be made public).
