

We party THIS SATURDAY!

Our tenth anniversary celebration features a lush and beautiful tenth anniversary beer garden, a museum-worthy interactive timeline of our exciting decade of brewing, and Taproom activations themed on all-star brews. Share funny quips in an analog booth dedicated to "Juicy Truths," take in beautiful city views from the Rooftop, and...

of course, BEER!

Every year we mark our anniversary with a special birthday brew, and this year we're continuing the tradition with two! You can snag both of these limited-edition tenth anni brews (details below) in the Taproom at the Now and Ten 10th anniversary celebration happening all day this Saturday, June 17th!

NOW and TEN!

We wanted to create a birthday-worthy IPA only made possible by recent brewing innovations. The result is a vibrant and tantalizing brew that we could pack in a cooler, hop in a time machine, travel back ten years, and give to ourselves so we could hear us go "damn, that's good." Thiolized yeast helps Now and Ten achieve exceptionally vivid tropical fruit aromas and highly expressive notes of passionfruit, mango, and blueberry. Now and Ten is available in 16-oz. cans and on draft.

TENfinitly and Beyond!

We pulled out all the stops and set the thrusters to Ludicrous Speed for this super-limited tenth anniversary Outer Reaches release! Four kinds of citrus, honey, pink peppercorns, and yeast taken from the knees of a literal bee all went into the tank to create an otherworldly fuel that should keep the mothership on track for another decade and then some. If you're a sour fan don't let this one cruise by. Read the review

DOORS OPEN AT 10AM

Few brewery collaborations have taken on life quite like Braxton and Graeter's teaming up. The two companies started their life together with the release in 2017 of their 'Black Raspberry Chip Stout,' a beer that caused folks to line up down the street at the Braxton taproom to get their hands on a four-pack.

Since that day in February – the two have come together many times in the name of craft beer happiness. They've done more than eight different can releases and collaborated on a Dark Charge variant and a series of Smoothie seltzers (remember those?). Graeter's is even opening a new store next to the upcoming Braxton taproom in Union, Kentucky.

It's like Braxton and Graeter's Ice Cream go hand in hand at this point – which is why it shouldn't be a shock that they are teaming up again for a new beer – and it will be perfect for summertime!

Sweet Peach Kolsch

The brewery will release this new beer at a taproom ice cream social on Saturday, June 17th. It starts with a base of a Kolsch ale (sorry, Germany... Kolsch-style ale) before getting a nice healthy dose of peach juice and local peaches. If you aren't familiar, Kolsch is a German-style ale/lager hybrid. It is light and easy to drink, with a crispy character and a light, fruity note that comes from the yeast profile. It's a great summer beer style.

If you add the refreshing and oh, so summery peaches to it – I think it will be an absolute hit.
