

FIBONACCI
BREWING COMPANY

IT'S OUR

8th Birthday Party

July 28th-30th

FRIDAY, SATURDAY
& SUNDAY

Gather with us for a weekend filled with merriment, unity, and exceptional craft beer as we celebrate our 8th birthday! Our festivities this year revolve around the fascinating Golden Ratio and Fibonacci sequence, the inspiration behind our brewery's name. Given our 8th year's special alignment with the Fibonacci sequence, we are planning a grand celebration!

The brewery will morph into a delightful haven of Fibonacci-inspired excitement throughout the weekend. Brace yourselves for an assortment of Golden Ratio-themed activities and special beer launches - an experience you won't forget. But this isn't just a birthday bash - it's a tribute to the incredible community that's embraced us over the past eight years. We're thrilled to commemorate this milestone with you and look forward to crafting more cherished memories together.

So mark your calendars, rally your friends, and prepare to raise a glass to yet another fantastic year of Fibonacci Brewing Company! We're excited to celebrate with you!

Some of the new and returning releases are as follows:

- ***In Honor Of Light Lager 4.6%***-In loving memory of Bob's mother, Loni, we have crafted a special beer to honor her cherished memory. Aptly named "In Honor Of," this light lager pays tribute not only to Loni but also to anyone dear to your heart, be it a lost family member, a celebrated veteran, or a hardworking college graduate. An American lager that has captured hearts, it delights with its light color and ABV, while accentuating the beloved flavor of all barley malt. Prepare for a clean and refreshing experience that embodies the spirit of love and remembrance.
- ***Mulberry Grove Sour Ale w/Locally Foraged Mulberries 5.4%***-Welcome to a world of flavor with our Sour Ale, handcrafted with locally foraged mulberries. Gaze upon its rich, dark burgundy color and embrace the invigorating tart dry finish. As you take each sip, the distinctive berry flavor from the mulberries dances on your palate, perfectly balancing this refreshingly crisp and tangy elixir.
- ***Addition Pale Ale w/Hop Terpenes 4.7%***-Our Pale Ale is a radiant yellow with a perfect balance of moderate bitterness. Infused with a unique selection of hop terpenes, including Pineapple Express, Gelato, Eureka, Denali, and King Louis XIII, this ale boasts an enticing floral aroma and taste. Harnessing the power of terpenes, aromatic compounds found abundantly in hops and cannabis, this beer delivers incredibly potent and captivating flavors, making it a truly remarkable and aromatic experience.
- ***Horapha Cream Ale w/Lemon, Honey, and Thai Basil 4.9%***-Our delightful Cream Ale, a golden-hued masterpiece that promises a harmonious blend of nature's finest ingredients. Crafted with honey from Bee Haven and Thai Basil from Running Creek Farm, it offers a tantalizing low bitterness. Prepare to be enchanted by the strong essence of Thai basil, artfully balanced with the sweetness of honey and the zesty freshness of organic lemon, culminating in a truly refreshing and flavorful experience.
- ***Tollhouse Rubia w/Cold Press Coffee 7.9%***-Discover our American Stout, boasting a jet black color and a perfect balance of bitterness. Enjoy the robust roasted coffee aroma, complemented by hints of chocolate, as we expertly utilize cold press coffee from Deeper Roots Losantiville Blend for a sweet and smooth experience without the need for dark roasting. Embrace the rich flavors and full-bodied pleasure that this brew offers, designed to delight dark roast enthusiasts and coffee lovers alike.
- ***Broken Code Dark Ale 3.7%***-An interesting low ABV beer that is full of roasted flavors including coffee, toffee, bread crust, and chocolate. Hints from lactose are used to balance the roastiness, and an ample hop addition rounds out the complexity with just enough hoppiness to make you think you are drinking an IPA.

WEST COAST IPA

Refreshing Clarity, Embrace the West Coast Way!

NEW!

WEST COAST IPA BRILLIANT & CRUSHABLE

Brewing can be more of a science than an art, but ultimately, it's about understanding the people that drink your beer and giving them a style they might not even know they were craving. Below, Ryan does a deep dive on what the world of IPA was, what it is now, and why we introduced our West Coast IPA.

“On the surface our West Coast IPA seems like any other IPA, but it’s not. It is everything that we’ve learned in 10 years of creating IPA. It’s fruity, aromatic, balanced, and juicy, without losing traditional West Coast traits like piney notes and bitterness.”

-Ryan Hayes

Director of Brewery Operations

Voodoo Brewing plans brewpub in Cincinnati and now in the suburb of West Chester

By [Zachary Jarrell](#) – Staff Reporter, Dayton Business Journal Jul 27, 2023

A Pennsylvania-based craft brewery is expanding nationwide and appears to be eyeing an additional Greater Cincinnati location in the suburbs. Voodoo Brewing Co. is targeting a property at 9456 Water Front Drive in West Chester Township after building and sign permits were submitted to Butler County officials. This would be the brewery's third location in Ohio, with one in Cleveland and [another slated to open at 120 E. Eighth St. in downtown](#)

The West Chester location has yet to gain approval from Butler County. According to the building permit, the project would cost \$250,000. It would add to a plethora of retail shops, restaurants and entertainment destinations in this part of the Cincinnati suburb, including AMC Theatres and Top Golf.

The location would be owned by a franchisee, according to multiple officials connected to the project, meaning it would be independently owned and operated. The local franchisee did not respond to a request for comment as of this posting. Other Voodoo Brewing locations serve food – like pizza, burgers and nachos – in addition to beer.

The news comes after Voodoo Brewing revealed last year its ambitions to embark on a nationwide expansion. The company selected commercial real estate services and investment firm CBRE as its exclusive leasing agent.

"Craft breweries is a sector that has recently taken off," said [Patricia AmecAngelo](#), first vice president for CBRE, in a statement from last year. "Voodoo boasts strong unit economics coupled with healthy returns to franchisee operators."

Voodoo Brewing, according to a CBRE news release, seeks out 4,000 to 7,000 square feet of endcap or stand-alone space within 10 miles of 25,000 households. Each location typically provides indoor seating for 75 to 150 people, it added.

Voodoo Brewing is expected to do any on-site brewing at its downtown Cincinnati location. It's unclear if that will also be the case in West Chester. Most of its products will be shipped from its Pennsylvania headquarters to Cleveland, where the store will distribute the beer southbound.

Founded in 2005, according to CBRE, Voodoo Brewing has received national and international accolades for its beers, food and logo artwork. In addition to locations in Pennsylvania and Ohio, its website says, the brewery has locations in Nevada, Colorado, and South Carolina.
