The newest bar and restaurant at the Banks – whose menu was created by a celebrity chef known for appearances on Food Network and Spike TV – will open this month. Red Leprechaun Irish Pub will host its grand opening Oct. 6 at 20 W. Freedom Way. Daniel Scott, [who opened Fishbowl at the Banks in 2019](#), is spearheading Red Leprechaun, partnering with Chef Brian Duffy – known for the Spike TV series "Bar Rescue" and his appearances on Food Network's "Beat Bobby Flay" – to create an Irish-themed menu. [The concept was first announced in March](#) with a planned summer debut.

The centerpiece of the venue is an imported bar from Malahide, Ireland – north of Dublin – that was built in 1957. Scott had the bar and stained glass shipped from Ireland to Cincinnati to be refinished for Red Leprechaun. Red Leprechaun sits inside of the designated outdoor refreshment area (DORA) at the Banks, which allows visitors to carry alcoholic beverages in open containers between the riverfront development's 15 bars and restaurants. Scott, also known as KISS 107.1-FM's DJ Sab, [opened Fishbowl at the Banks in October 2019](#), and then [expanded the bar into neighboring space](#) that had previously been leased by retailer Tervis in 2021. The Banks is the massive reinvention of the land between Paycor Stadium and Great American Ball Park, formerly parking lots. The development was [acquired by Columbus-based commercial real estate firm Crawford Hoying](#) in October 2022 for \$176.6 million. Their holdings include Current at the Banks, with 300 apartment units and 77,000 square feet of retail space; and Radius at the Banks, with 292 units and 19,000 square feet of retail.

To sweeten up the deal (no pun intended!), you can *keep* the 8-ounce Fretboard branded glass. Supplies of glassware are limited so once they run out, they run out. Fugee floats will be available all weekend and our 8-ounce "keep the glass" offering is available while supplies last. Try out this one of kind Nut Brown Ale infused with Vanilla, Maple and French Toast flavors and make it a beer float to turn up the flavor volume to 11!
