

We're officially brewing....

We've Brewed Up Some Collabs!

The brewing industry is known for it is collaboration and Cincy's scene is beyond special! To help us celebrate our upcoming launch, we partnered with 4 other local breweries to create some goodness we can't wait for you all to try in their space when available or at ours when we open soon:

1. We brewed up a Hazy Pale Ale at BC's Brewing Company (Find it at BC's now!)
2. We brewed up a Hefeweizen with Little Miami Brewing Company (Find it at LMBC now!)
3. We brewed up a Cream Ale with Dead Low Brewing Company
4. We brewed up a Kettle Sour with Narrow Path Brewing Company

We're Also Brewing In-house!

We've fired up our brand-new system. Everything we brew is inspired by Morrow and surrounding areas and intends to give you an experience of the area in every sip. We've brewed 4 beverages in-house to date and will brew 2 more lagers this week! So far, we've brewed batch one of each of the following:

- 1. Jeremiah Juice Seltzer**
- 2. 1845 IPA**
- 3. Sheepskin Stout**
- 4. Fort Ancient Amber Ale**

## NEW BEER ALERT! This Brew is a HIT!

CHEERS to the Hit King! We're continuing the tribute to Cincinnati's Pete Rose all weekend long with our new PETE IPL! It's a cold-brewed India Pale Lager that blends the crisp, clean finish of a lager with the hoppy aroma and flavor of an IPA. Pints are \$3.14 all week long, so drop in this weekend and toast to a Cincinnati legend! 🍷🎉

**Saturday, June 7, 2025, At Urban Artifact Brewery & Environs  
Northside, 1660 Blue Rock Street, Cincinnati, Ohio  
Noon till the wolves come out.**

Missing Linck Yeast was discovered clinging to life in a pre-prohibition fermenting vat, found in the lost lagering cellars of the 19th Century Linck Brewery. It should have been dead. Instead, it was rescued, cultivated, propagated, and unleashed on the 21st Century. Now, the bravest of brewers are each reintroducing the Missing Linck to the modern world with their own inspiration. Styles are broad, the freak is on, and the Missing Linck reawakens in every pour.

Missing Linck brews from all participating breweries will be on tap at Urban Artifact Brewing Co. (1660 Blue Rock) and the Missing Linck Festival Grounds from noon until we run out or the cops show up. Sustenance, music, and species degeneration all day and evening.

Participating Breweries include:

## Bruckmann Brewery Tours For the FIRST TIME EVER!

Tours Unveiled during the Missing Link Festival.

Join us for the premiere of the Bruckmann Brewery Tour!

Brewing began at this location in 1856 and continued for nearly 100 years under the stewardship of the Bruckmann family. The former brewing complex is one of the most complete 19th century brewery sites in the country and most major components are still in existence including the brewhouse, malthouse, bottling building, stables, family home, power plant, and the underground lagering cellars! After brewing operations ceased in 1950, much of the site was repurposed for other businesses including the Fountain Winery in the 1980s and the headquarters and production facility of the Worthmore Food Products Company, who specialized in producing Cincinnati style chili and mock turtle soup.

Guests on the tour will be taken via shuttle bus from the Urban Artifact Brewery to the Bruckmann Brewery site, where we will explore inside several of the buildings, including the underground lagering cellars! While at the Bruckmann Brewery site, we'll provide guests with a local craft beer to drink while exploring the brewing complex. At the conclusion of the tour, the bus will return to pick up the group and bring them back to the festival. This site has not been open to tours before, and the Brewing Heritage Trail has put a lot of work into repairing various structures at the site in order to make this history available to the public. Don't miss out on this unique experience offered only by our non-profit organization!

**Tours Leave every 1/2 hour from Urban Artifact Brewery 1660 Blue Rock St., Cinti. OH 45223**
